

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

SRI (the "Sub-Fund") is a sub-fund of Long Term Investment Fund (SIA) (the "Fund")

Class SRI EUR-D (the "Class") - ISIN: LU1790109414

The Fund has appointed FundPartner Solutions (Europe) S.A. as management company.

Objectives and investment policy

The Sub-Fund objective is to provide long-term capital appreciation, primarily through investment in a portfolio of equity securities of undervalued companies worldwide with a high growth and profitability potential.

The Sub-Fund is actively managed. The index MSCI World AC Total Return Net EUR is used for the calculation of the performance fee (payable to the investment manager). The index is used for the calculation of the relative VAR. It is mentioned for performance comparison purposes. The Sub-Fund does not track the index and can deviate significantly or entirely from the benchmark index.

The Investment Manager will deploy a strategy that satisfies the application of a screening process for socially responsible investing. The Fund will not hold stocks of companies in the portfolio that do not meet specific socially responsible criteria. As such, the Investment Manager Fund will mainly invest in globally listed companies that strive for exemplary governance in the areas of ethical, social or governance issues. At the same time companies can be excluded from critical activities (e. g., alcohol, gambling or tobacco) from a social responsibility / ethical perspective.

The Sub-Fund will mainly invest in equity and equity related securities (including convertible bonds) issued by companies worldwide. The portfolio will be made of a limited, yet diversified, selection of securities considered by the investment manager as offering the greatest potential for profitability, which is key in the Sub-Fund's long term investment philosophy. Investment risk will be spread by preserving a neutral bias, hence there will apply no restrictions as to specific currency, sector or regional (including emerging markets) weights.

The Sub-Fund may also invest in structured products, as further detailed in the prospectus, including structured products without embedded derivatives, correlated with changes in commodities (including precious metals) with cash settlement. These investments may not be used to elude the investment policy of the Sub-Fund.

The Sub-Fund may also invest up to 10% of its net assets in other open-ended undertakings for collective investment.

Within the limits specified in the prospectus, the Sub-Fund may invest in Russia, through among others securities listed on the MICEX-RTS.

For hedging and for any other purposes, the Sub-Fund may use financial derivative instruments within the limits and descriptions set out in the prospectus. The use of derivative instrument may increase leverage, imply additional costs and risks.

Dealing Frequency

The net asset value for this Class is calculated every bank business day in Luxembourg. The cut-off time to submit subscription and/or redemption orders is 4 p.m. Luxembourg time on the last business day preceding the relevant valuation day.

Distribution Policy

The Class may distribute a dividend.

Currency

The currency of the Class is EUR.

Investment Horizon

The Sub-Fund is a medium risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through investment in equities and it requires an investment horizon of at least 5 years.

Risk and reward profile

Risk Disclaimer

- This current risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.

- The risk category shown is not guaranteed and may shift over time.

- The lowest category, which corresponds to Number 1, cannot be regarded as being risk-free.

- The Sub-Fund does not provide any capital guarantee or asset protection measures.

Why is this Sub-Fund in this category?

The portfolio of this Sub-Fund consists essentially of equities and equity related securities issued worldwide. The objective of the Sub-Fund is to achieve capital growth by using equity-linked investment strategies with a high growth and profitability potential. Hence, the risk/reward profile of the Sub-Fund should correspond to a High risk category on the risk/reward scale.

Are there any other particular Risks?

Risks that could affect fund performance and are not necessarily fully reflected in the risk and reward rating include:

- **Liquidity risks:** The Sub-Fund may invest part of its assets in less liquid securities. Those are securities that cannot easily be sold or exchanged for cash without a substantial loss in value in certain market conditions. Those securities also cannot be sold quickly because of a lack of ready and willing investors or speculators to purchase the asset.

- **Counterparty risks:** The Sub-Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Sub-Fund.

- **Credit risks:** The Sub-Fund may not invest in debt securities. The issuers of these debt securities may become insolvent, which will mean that the securities will lose all or some of their value.

- **Risks from the use of derivatives:** The Sub-Fund may use financial derivatives instruments which may result in the Sub-Fund being leveraged and may result in material fluctuations in the value of the Sub-Fund. Leverage on certain types of transactions including derivatives may impair the Sub-Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Sub-Fund not to achieve its intended objective.

Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Sub-Fund being exposed to a greater loss than the initial investment.

- **Operational risks:** The Sub-Fund may fall victim to fraud or criminal acts. It may suffer losses as a result of misunderstandings or mistakes by employees of the management company or by external third parties or may be damaged by external events, such as natural disasters.
