General information

The SICAV publishes an annual report, including Audited Financial Statements, within four months of the year-end and an unaudited semi-annual report within two months of the periodend. The annual and semi-annual reports include the financial statements of the SICAV and of each of its sub-funds.

The annual reports, including Audited Financial Statements, and unaudited semi-annual reports are available free of charge to shareholders at the registered office of the SICAV, from the Custodian or other companies appointed by the Custodian and from any Paying Agent or Representative in the countries in which the SICAV is marketed.

The net asset value per share of each sub-fund as well as the issue and redemption prices are available from the Central Administration.

Any amendments to the Articles of Association shall be published in the "Mémorial du Grand-Duché de Luxembourg".

A detailed schedule of changes in the investments of the different sub-funds for the year is available free of charge upon request at the registered office of the SICAV or at the paying and information agents in Germany, in Austria and the Swiss representative.

The figures as at December 31, 2013 presented in this report are related to the net asset value of each of the SICAV's sub-funds, which is calculated using the closing prices and exchange rates as at December 31, 2013.

Distribution abroad

Distribution in Switzerland

The SICAV has been authorised by the Swiss Financial Market Supervisory Authority FINMA as a foreign investment collective fund pursuant to article 119 of the Federal Law of June 23, 2006 on Capital Investment Schemes Ordinance.

Management report

In general, the year 2013 overall was again a good year for equity investors in established markets. The exception though were Natural Resources companies as well as Emerging Markets, therefore our two specialized sub-funds in those two segments suffered from the poor performance of the sector/region as a whole. Our flagship, the LONG TERM INVESTMENT FUND (SIA) - CLASSIC, was able to perform again well and ended the year up 15.86%.

First quarter 2013

The year started very well, due to the fact that valuations were still very attractive. However, the sentiment towards equity investing was rather hesitant. This attitude remained the same throughout the year.

Second quarter 2013

During the second quarter, like in the previous year, risk aversion and a degree of higher uncertainty returned to the market. This became most visible in our two specialized sub-funds, namely the LONG TERM INVESTMENT FUND (SIA) - NATURAL RESOURCES sub-fund and the LONG TERM INVESTMENT FUND (SIA) - EMERGING MARKET VALUE sub-fund that lost 15.43% and 10.52% respectively during this quarter.

Third quarter 2013

After the market correction in the second quarter, valuations looked again attractive, especially relative to other investment alternatives such as fixed income investments, and therefore our sub-funds were able to perform again well.

Fourth quarter 2013

Finally, the year ended quite well and almost all our sub-funds had a positive last quarter of the year 2013.

Past performance is not an indicator of current or future returns.

Management report (continued)

Outlook

As described above, all in all 2013 was quite a good year for equity investors in established markets, but on the other hand the returns were in line with our expectations. Therefore valuations are still basically fair and we would expect again a positive year for equity investors in 2014, with some additional potential for our two specialized sub-funds. Of course one thing is clear and will remain, markets will stay volatile.

Report of the réviseur d'entreprises agréé / Auditor's report

To the Shareholders of

Long Term Investment Fund (SIA) Société d'investissement à capital variable (a Luxembourg domiciled open-ended investment company) 15, avenue J.F. Kennedy, L-1855 Luxembourg

Following our appointment by the Annual General Meeting of Shareholders dated April 26, 2013, we have audited the accompanying financial statements of Long Term Investment Fund (SIA) (the "SICAV") and of each of its sub-funds, which comprise the combined statement of net assets, the statement of net assets and the statement of investments and other net assets of each of its sub-funds as at December 31, 2013, as well as the combined statement of operations and changes in net assets, and the statement of operations and changes in net assets, and the statement of operations and changes in net assets of each of its sub-funds for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Deloitte.

Report of the réviseur d'entreprises agréé / Auditor's report (continued)

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Long Term Investment Fund (SIA) and of each of its sub-funds as of December 31, 2013, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

NOTE 1 GENERAL

LONG TERM INVESTMENT FUND (SIA) (the "SICAV") is an open-ended investment company of the umbrella type organised as a "société anonyme" under the laws of the Grand Duchy of Luxembourg and qualifies as a Société d'Investissement à Capital Variable ("SICAV") under Part I of the Luxembourg amended law of December 17, 2010 (the "Law") regarding collective investment undertakings, whose object is to invest in transferable securities under the principle of risk spreading in accordance with, and as more fully described in, its Articles and the Prospectus.

The SICAV was incorporated for an indefinite period on February 2, 2006, with an initial capital of Euro 31,000. Its articles of incorporation were last amended on July 26, 2006 and published in the official gazette Mémorial on August 30, 2006.

A legal statement giving notice of the issue and sale of shares by the SICAV has been filed with the Trade and Companies Register of Luxembourg.

The Company is registered at the Trade and Companies Register of Luxembourg under the number B 113 981.

The SICAV is divided into several sub-funds. Each sub-fund is governed by a specific investment policy and is denominated in a specific currency.

As at December 31, 2013, LONG TERM INVESTMENT FUND (SIA) includes four sub-funds in activity:

- LONG TERM INVESTMENT FUND (SIA) CLASSIC, denominated in Euro (EUR),
- LONG TERM INVESTMENT FUND (SIA) ALPHA, denominated in Euro (EUR),
- LONG TERM INVESTMENT FUND (SIA) NATURAL RESOURCES, denominated in Euro (EUR),
- LONG TERM INVESTMENT FUND (SIA) EMERGING MARKET VALUE, denominated in Euro (EUR).

As at December 31, 2013, the following share classes are issued:

| Sub-fund | Class | Currency |
|---|--|--------------------------|
| LONG TERM INVESTMENT FUND (SIA) - CLASSIC | Classic EUR Classic CHF Classic GBP Classic USD | EUR CHF GBP USD |

|---|--|---|
| LONG TERM INVESTMENT FUND (SIA) - EMERGING MARKET VALUE | EUR Class CHF Class GBP Class USD Class | EUR CHF GBP USD |

On December 2, 2012, the Board of Directors of the SICAV decided to reorganise the SICAV as a SICAV with a Management Company with effect as from January 1, 2013. To this end, the Board of Directors of the SICAV decided to appoint FundPartner Solutions (Europe) S.A. (FPS) as its Management Company within the meaning of Article 101 (2) of the Luxembourg Law. As a result, the SICAV has abandoned its status of self-managed SICAV and the relevant mandates of the SICAV's day-to-day managers came to an end.

On March 7, 2013, the Board of Directors of the SICAV has confirmed its adherence to the ALFI's code of conduct relating to Luxembourg investment funds.

On October 8, 2013, the Board of Directors informed the Shareholders of the LONG TERM INVESTMENT FUND (SIA) - CLASSIC sub-fund that it had the intention to merge the sub-fund with sub-funds of ABRIAS, a SICAV organised under part I of the Law.

On October 16, 2013, the Extraordinary General Meeting of ABRIAS decided to merge the sub-funds ABRIAS - WORLD EQUITY VALUE, ABRIAS - US EQUITY VALUE and ABRIAS - EUROPE SMALL AND MID CAP VALUE into the class of the sub-fund LONG TERM INVESTMENT FUND (SIA) - CLASSIC EUR with effect as at November 20, 2013.

The exchange ratios and the number of shares issued were as follows:

Pooling:

The SICAV makes use of pooling for the purpose of efficient management of assets.

The investment portfolio of the Long Term Investment Fund (SIA) - Classic and Long Term Investment Fund (SIA) - Alpha sub-funds are managed jointly in a single pool of investments.

However this pool is used exclusively for the purpose of internal management. It is not an individual legal entity and is not directly accessible to investors. Each co-managed sub-fund is allocated its own assets.

When the assets of a sub-fund are managed according to this technique, the assets initially attributable to each co-managed sub-fund are determined according to its initial contribution to the pool. Subsequently, the composition of these assets shall vary according to the contributions or withdrawals made by these sub-funds.

The allocation system described above applies to each holding in the pool. Henceforth, any additional investments made on behalf of the co-managed sub-funds are attributed to these sub-funds according to their respective rights, while any assets sold shall be deducted in the same way from the assets attributable to each of the co-managed sub-funds.

Dividends, interest and non-contractual fees are accounted for in the pool and prorated to each sub-fund on the date these operations are recorded (expense provisions, recording of expenses and/or income on bank accounts). Conversely, contractual fees (custody, administration, management fees, etc.) are recorded directly in the respective sub-funds.

The assets and liabilities attributable to each sub-fund are identifiable at any given moment.

The realised gain/loss and/or unrealised appreciation/depreciation on investments are recorded in the pool in the reference currency of the said pool. They are then recorded in each sub-fund on the basis of its participation in the pool.

The statement of net assets and the statement of investments and other net assets show the situation of the portfolio on the closing date of the year based on the sub-fund's participation in the pool as at closing date.

The data recorded in the statement of operations and changes in net assets under "Net realised gain/loss on pool - pooling effect" represent:

• the currency effect due to differences between the exchange rates used as at the closing date and those used at each NAV calculation;

• the effect of the difference between the percentage participation in the pool(s) as at the closing date and the percentage participation applicable as at each NAV calculation.

The current versions of the Prospectus, the Key Investor Information Document (KIID), the Articles of Association and the annual and semi-annual reports can be obtained free of charge from the representative, the paying agent and at the registered office of the SICAV.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Presentation of financial statements

The financial statements are presented in accordance with generally accepted accounting principles and legal reporting requirements applicable in Luxembourg.

b) Formation expenses

Formation expenses are amortised over a maximum period of five years.

c) Conversion of foreign currencies for each sub-fund

Cash at banks, other net assets as well as the market value of the investment portfolio in currencies other than the currency of the sub-fund are converted into the base currency of the sub-fund at the exchange rate prevailing at the end of the year.

Income and expenses in currencies other than the currency of the sub-fund are converted into the currency of the sub-fund at the exchange rate applicable on the payment date.

Resulting foreign exchange gains and losses are included in the statement of operations and changes in net assets.

d) Combined financial statements

The combined financial statements of the SICAV are expressed in EUR. Accounting items of the different sub-funds denominated in currencies other than EUR are converted into EUR at the exchange rates prevailing at the end of the year.

e) Valuation of investments

1) Securities and other assets listed or dealt in on a stock exchange or another regulated market are valued at the last available price; where such securities or other assets are listed or dealt in one or by more than one stock exchange or any other regulated market, the Board of Directors of the SICAV shall make regulations for the order of priority in which stock exchanges or other regulated markets are used for the provisions of prices of securities or assets.

2) Securities not listed or dealt in on a stock exchange or another organised market and securities so listed or dealt in for which the last available price is not representative of a fair market value, are valued prudently and in good faith on the basis of their estimated sale prices.

3) Cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received are valued at their face value with interest accrued.

4) The units/shares of open-ended undertakings for collective investment are valued on the basis of the last known Net Asset Value or, if the price so determined is not representative of their fair market value, are valued as the Board of Directors of the SICAV may deem fair and reasonable. Units/shares of closed-ended undertakings for collective investment are valued on the basis of their last available market value.

Notes to the financial statements as at December 31, 2013 (continued)

5) Liquid assets and money market instruments which are not listed or dealt in on a stock exchange or another regulated market with remaining maturity of less than twelve months are valued at their nominal value increased by any interest accrued thereon, if any, such global value being amortised pursuant to the amortised costs method.

6) Futures, forward and options contracts not dealt in on a stock exchange or another regulated market are valued at their liquidating value determined pursuant to the policies established in good faith by the Board of Directors of the SICAV, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward and options contracts dealt in on a stock exchange or another organised market is based on the last available settlement prices published by such stock exchange or other regulated market where these particular futures, forward or options contracts are traded. If a futures, forward or options contract could not be liquidated on the Valuation Day of the relevant assets, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors of the SICAV may deem fair and reasonable.

f) Valuation of forward exchange contracts

The unrealised gains or losses resulting from outstanding forward exchange contracts, if any, are determined on the valuation day on the basis of the forward exchange rates applicable on this date and are included in the statement of net assets.

g) Valuation of contracts for difference

Contracts for difference (CFD) are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date.

h) Valuation of Total Return Swaps

Cashflows received and paid by the sub-funds in connection with total return swaps are converted to present value on the valuation date at the zero-coupon swap rate corresponding to the maturity date of these cashflows. The payment received by the protection buyer, which is a combination of options, is also discounted and determined by several parameters, notably the price, the volatility and the likelihood of the underlying assets defaulting. The value of total return swap contracts is the difference between the two present value conversions described above.

i) Net realised gains or losses on sales of investments

Realised gains or losses on sales of securities are calculated on the basis of average cost.

j) Acquisition cost of securities in the portfolio

The cost of securities denominated in currencies other than the base currency of the different sub-funds is calculated at the exchange rate prevailing on the acquisition date.

Notes to the financial statements as at December 31, 2013 (continued)

k) Accounting of forward contracts and CFD

Unrealised appreciations and depreciations on forward contracts and CFD are settled daily through the reception/payment of a cash amount corresponding to the daily increase/decrease of the market value of each opened forward contract or CFD. Such cash amount is recorded under the caption "Cash at banks" in the statement of net assets and the corresponding amount is recorded under the caption "realised gain and loss on forward contracts" in the statement of operations and changes in net assets.

I) Income

Dividends are recorded at the ex-date. Interest is recorded on an accruals basis.

m) Dividend distribution

The Board of Directors of the SICAV reserve the right to introduce a distribution policy. No dividend distribution which may result in the SICAV's net assets being below EUR 1,250,000 can be made.

n) Transaction fees

The transaction fees represent the costs incurred by each sub-fund in connection with purchases and sales of investments. Transaction fees include brokerage fees, bank commissions, foreign tax, depositary fees and other fees. They are included in the statement of operations and changes in net assets.

NOTE 3 "TAXE D'ABONNEMENT"

The SICAV's net assets are subject to a subscription tax of 0.05% per annum payable at the end of each calendar quarter and calculated on the basis of the SICAV's total net assets at the end of the relevant quarter; such tax is reduced to 0.01% per annum in respect of Classes comprising institutional investors only (as per article 174 of the Law). This tax is not applicable for the portion of the assets of a sub-fund invested in other Luxembourg undertakings for collective investment already subject to "taxe d'abonnement".

NOTE 4 MANAGEMENT AND DISTRIBUTION FEES

The Investment Manager and the Global Distributor are entitled to receive from the SICAV a management fee and a distribution fee, respectively, payable out of the assets of the relevant sub-fund on a quarterly basis at a total annual rate which could vary per sub-fund; both such fees do not exceed 1.50% in total of the average net asset value of the relevant sub-fund as determined during the relevant quarter.

For the year under review, the following annual rates have been applied:

Management and distribution fees:

LONG TERM INVESTMENT FUND (SIA) - CLASSIC : 1.50% LONG TERM INVESTMENT FUND (SIA) - ALPHA : 1.50% LONG TERM INVESTMENT FUND (SIA) - NATURAL RESOURCES : 1.50% LONG TERM INVESTMENT FUND (SIA) - EMERGING MARKET VALUE : 1.50%

Notes to the financial statements as at December 31, 2013 (continued)

NOTE 5 PERFORMANCE FEE

The Investment Manager/the Global Distributor receive a performance fee, paid quarterly, based on the net asset value (NAV).

More details on the calculation method are available in the latest prospectus of the SICAV.

For the year ended December 31, 2013, no performance fee was charged to the SICAV.

NOTE 6 OTHER FEES PAYABLE

As at December 31, 2013, other fees payable include mainly audit, administration, custodian and management company fees.

NOTE 7 SUBSCRIPTION, REDEMPTION AND CONVERSION FEES

The subscription and redemption price for shares of each sub-fund is equal to the net asset value per share of the relevant sub-fund, calculated on the first valuation day following receipt of the subscription/redemption request.

Intermediaries involved in the distribution of shares may charge additional fees to their clients subscribing/redeeming in the SICAV via them.

A conversion commission of up to 1.00% of the Net Asset Value of the Shares of the Class into which conversion is requested may be charged by the SICAV (and disclosed under an "Other income" caption) at the discretion of the Board of Directors of the SICAV, to protect investors against excessive trading due to conversion between the sub-funds.

Further details are provided in the prospectus of the SICAV.

Other information to Shareholders (unaudited appendix)

Information on risk measurement

The 4 sub-funds of the SICAV use the VaR approach to monitor the Global Risk Exposure ("GRE").

More specifically, to the exception of the LONG TERM INVESTMENT FUND (SIA) - ALPHA sub-fund which uses the Absolute VaR option, all the sub-funds use the Relative VaR option.

The following table (table 1.1 page 45) provides the information required as per CSSF circular 11/512.

General comments

All VaR figures are calculated by taking into consideration the following parameters

- 1 month holding horizon
- 99% confidence interval (this means that there is a 1% probability that the value of the portfolio could have a monthly decline larger than the percentage displayed)
- Monte Carlo simulations
- 3.5 years of data history to determine the risk factors

The treatment and presentation of VaR figures is slightly different depending on the VaR option used (relative or absolute).

<u>1 Relative VaR option</u>

The daily VaR observations (from January 1, 2013 to December 31, 2013) for the sub-fund have been systematically measured against the VaR observations for the benchmark. The ratio obtained is called the *VaR limit utilization ratio*.

E.g. January 1, 2013, LONG TERM INVESTMENT FUND - CLASSIC

| Sub Fund VaR | 13.87% |
|-----------------------|---------|
| Benchmark VaR | 12.01% |
| VaR limit utilization | 115.49% |

This ratio has to be put into perspective with the maximum limit allowed by the Law, which is 200%.

We present in the table the average, minimum and maximum levels of that VaR limit utilization ratio.

The next two columns present the average VaR levels measured in absolute terms for the sub fund and the benchmark during the same period.

2 Absolute VaR option

For sub funds using the Absolute VaR option, we present the figures (avg, min and max) in absolute terms. In other words they are not measured against any benchmark nor limit. We consider that way of presenting the figures as more relevant and easier to understand.

The leverage level is included as well. It has been calculated as the sum of the notionals of the derivatives used (CESR/10-788 box25). The presented figure is based on bimonthly observations covering the period starting on January 1, 2013 to December 31, 2013.
